

Airmodus Sponsors Best Presenter Award at ICNAA 2025

We are thrilled to announce that Airmodus, a leading innovator in aerosol measurement technology, is sponsoring the prestigious Best Presenter Award at the 22nd International Conference on Nucleation and Atmospheric Aerosols (ICNAA 2025). This award celebrates outstanding scientific presentations that exemplify innovative thinking, rigorous research, and exceptional communication in the field of nucleation and atmospheric aerosols.

Held from August 24-29, 2025, in Vienna, Austria, ICNAA 2025 brings together global experts to discuss cutting-edge advancements in aerosol science. As a Silver Sponsor, Airmodus is proud to support this event and highlight excellence in presentations. The award winner will be selected by a nomination board including top management from Airmodus, based on the following key criteria:

- **Innovative Thinking:** Originality, creativity, and potential impact advancing the field.
- **Scientific Rigor:** Robust methodology, evidence-based analysis, and logical soundness.
- **Communication Skills:** Effective conveyance of ideas with clarity, engagement, and strong delivery.

The recipient will receive a custom diploma recognizing their extraordinary ability to inspire and inform through scientific storytelling.

Airmodus's sponsorship underscores their commitment to advancing aerosol research, particularly with the A12 nCNC—the most advanced nucleation particle monitor available. Capable of measuring sub-micron particle concentrations and dynamics down to 1-12 nm, the A12 nCNC empowers researchers to uncover new insights into atmospheric processes.

Stay tuned for the award announcement during the conference. For more details on ICNAA 2025, visit <https://icnaa2025.univie.ac.at/home/>. We look forward to celebrating innovation in Vienna!
